SUMMARY

Senior Front-end Developer with solid experience in React, Next.js, and TypeScript, working on building scalable applications and modernizing legacy systems. Experience in micro-frontend architecture (Module Federation), focusing on team independence, scalability, and code quality. Experience in large-scale projects, including government systems and e-commerce, collaborating with stakeholders and multidisciplinary teams to deliver high-impact solutions.

TECHNICAL SKILLS

- Front-end: ReactJS, Next.js, React Native, TypeScript, Redux, Zustand, MobX, Styled Components,Tailwind, Vite, React Query, RTK Query;
- UI: Material UI, Ant Design, Chakra, Shadcn/ui;
- Testing: Jest, React Testing Library, Vitest;
- Tools: Git, CI/CD, Docker, SonarQube, Jenkins;;
- Architecture: Design System, Micro-frontend(Module Federation);
- Others: Node.js (básico), REST, GraphQL;

LANGUAGES

- Basic English (A2) – Learning in progress;

EDUCATION

- Postgraduate Degree in Technical Leadership – Full Cycle (Completed/2025);
- Postgraduate Degree in Software Quality Engineering – Senac (Completed/2021);
- Bachelor's Degree in Computer Science – Unip Swift (Completed/2021);

PROFESSIONAL EXPERIENCE

- **Extreme Digital Solutions** – (Dec 2025 - present)
  Cargo: Desenvolvedor Front-end Sênior
  - Migrating a legacy system to React using a micro-frontend architecture (Module Federation), improving team independence, domain separation, enabling independent deployment, and better application scalability.;
  - Developing responsive interfaces with Tailwind CSS, ensuring visual consistency and reducing UI rework;
  - Adoption of component standards using Shadcn/ui, ensuring consistency and scalability of the front-end;
  - Working on highly critical government projects, adhering to rigorous quality, safety, and compliance standards;
- **Venturus** – (Dec 2021 – Dec 2024)
  Position: Mid-Level Front-End Developer

    - Development and evolution of web and mobile applications with a focus on performance, scalability, and user experience;
    - Implemented unit tests using Jest, Vitest, and React Testing Library;
    - Utilized Ant Design and followed best practices for component-driven development;
    - Provided e-commerce performance consulting, identifying bottlenecks and suggesting improvements;
    - Created and maintained component documentation using Storybook;
    - Worked on an international project focused on handling high volumes of product data;
    - Support with an intern, including a study plan, technical mentoring, code review, and pair programming;
    - Documentation of processes and features, facilitating the onboarding of new team members and knowledge sharing;
    - Direct collaboration with clients, gathering requirements and delivering solutions according to their needs.
- **Stoom** – (Jan 2021 – Nov 2021)
  Position: Junior Front-End Developer
    - Developed e-commerce platforms using React, Redux, MobX, Next.js, Styled Components, and Material-UI;
    - Implemented responsive and high-performance interfaces based on UX/UI prototypes;
    - Developed the administrative panel (manager) for store configuration;
    - Contributed to optimizing the user experience in the checkout flow;
    - Implemented optimizations and best practices for SEO and Lighthouse metrics;
- **Inobrax** – (Mar 2018 – Dec 2019)
  Position: Full Stack Developer Intern -> Junior Full Stack Developer
    - Performed front-end and back-end development using React, Redux, Node.js, Next.js, and Ant Design;
    - Created REST and GraphQL APIs and performed deployments on Heroku;
    - Contributed to various projects, including e-commerce platforms, management systems, and internal applications;
    - Gained experience in a startup environment, acquiring a comprehensive understanding of the full development lifecycle;

ADDITIONAL QUALIFICATIONS & COURSES

- Curso Full Cycle 4.0 – Full Cycle 4.0 Course – Focus on application architecture, security, and DevOps (In Progress);
- Rocketscat Bootcamp – React, Node.js, and React Native (2020);
- Introduction to Programming Practice Course – Senac (2017);
